

Amazing, Awesome Architects

How mind boggling are the ultra-postmodern structures that have been designed by starchitects around the world. From Pritzker Prize winners I. M. Pei & Zaha Hadid to the amazing Tado Ando & Norman Foster. Are these magical or mysterious structures? You be the judge!

The Pritzker Prize is an American award presented annually to honor a living architect, began in 1979. The recipients receive \$100,000. These architects represent a combination of talent, vision and commitment who have produced a significant contribution to humanity and the built environment through the art of architecture. The highlight names are some of the winners.

Week One: *Anne Lacaton & Jean Phillippe 2021 Pritzker Winners*
