

Intermediate Painting Workshop

-Mary Kate McKinley & Peter Feeney

A cooperative workshop for art students of all levels and mediums.

This course features individual help in a relaxed atmosphere where we exchange ideas, and gain knowledge and new perspectives from fellow artists.

Students will bring their own art supplies, reference materials and setup.

There will be informal instruction on the use of various tools & techniques (Tips & Tricks) for all the mediums used by the students. Students may also request specific topics.

Since these students are experienced, Design & Art Principles along with Color Theory are explained as needed.

Critiques as we create usually happen weekly.
