

Guitar Music Jam

Guitar players—let's jam!

Note: the OLLI-Wilmington Guitar Jam has been a tradition for well over 10 years.

Each weekly jam will have a theme, or you may choose any song you love.

If you want to lead a song, send (email) the lyrics with chords by Monday in either pdf or docx format.

Instructors will distribute the week's playlist which students can print before Friday's class. Students should contact the instructors if having difficulty printing.

Students lead their song while others play or sing along. Don't be shy – we are all friends. This is a great opportunity to become comfortable playing with others.

All skill levels and other instruments welcome. Many OLLI guitar players have improved dramatically by joining these Jam sessions – many of them with only the “Beginner Guitar” class as experience. For others who had already been playing, their skill levels rise just by putting in the joyful playing time and picking up techniques of others.

No lessons—just fun! There is no end-of-semester concert performance. By the end of the semester, you will have many new songs to enjoy playing.
