

Guitar Workshop

During the first several classes we will select tunes/songs that we will practice throughout the semester. These should be familiar tunes that have a prominent guitar part. Together we will prepare lyrics, chords, and music for the selected tunes.

We will practice these tunes. During our practice we may use a metronome or a click track to keep a steady rhythm. We will record our practices at various times. We will listen to the recordings and make suggestions on how we may improve. The goal is to get each of the tunes performance ready for an open mic or a gig.

Some music theory will be presented to become more well-rounded guitarists and to be able to understand/analyze the tunes/songs we are playing.

We may prepare some tunes/songs for a lobby concert.
