

Rock Band

During the first several classes each student may suggest a song or two to be sung and played by the entire class. These should be popular songs from the 1950s-1970s. The songs should also be chosen so that all students have a chance to play on each song. The student requesting the song shall prepare a handout of the lyrics and chords which will be emailed to all students. Each student will print out (or use an electronic device) all the songs that have been suggested.

During the next several classes, we will play as many of the songs we can get to during each class – typically about ten songs. We will do this until we get through all the suggested songs. Then we will have a vote to keep about ten of the most popular songs.

During the remainder of the classes we will discuss and work on improving these ten or so songs in preparation for a lobby concert.
