

Inside Our National Parks, Part 1

Using lecture, PowerPoint and DVDs, we will journey through the National Park system, looking at the parks from the point of view of geologists, biologists, naturalists, park rangers and tourists. The PowerPoint portions of the lectures include photographs taken by the Instructor and his wife. Many of the lectures have been updated and some new lectures have been added. This is a four term course.

Instructor Bio

Bill Jones is a graduate of Cornell University. He worked at DuPont for 31 years, first as an auditor and later in Supply Chain Management. After retirement from DuPont, he worked with three consulting firms before managing his own Change Management consulting company. Now finally retired, Bill and his wife Dot travel extensively. Besides the travel, Bill enjoys our natural environment, reading and history.
