

Each of the 10 sessions will focus on one chapter of the book: Ahoi aus Hamburg,

Since the instructor has lived in Hamburg for many years, she will give first hand accounts about this city.

The lessons will provide multi sensory opportunities (hearing, viewing, writing and mainly speaking) to acquire basic German language.

The textbook is accompanied by an online German - English dictionary for each chapter and concentrates on high frequency word combinations. Therefore, tiresome dictionary searches are avoided.

There may be occasional “grammar minutes” when required to explain the contexts.

The book is accompanied by an online **workbook** with interesting exercises to teach German grammar.

Time will also be spent on using internet resources to facilitate the acquisition of basic German useful when traveling in Germany today.
