

## OSHER Fall 2022 Course Content

### “P” Nature in Autumn

#### Delaware Nature Society

Enjoy a trip through the fall season online with Delaware Nature Society Naturalists. Each week, focus on a different segment of nature including fall raptor migration, songbirds, wildflowers, naturalist resources, trees, aquatic ecosystems, virtual travel, butterflies, mammals, bayside nature, and a Bombay Hook Adventure. This class is designed to provide natural history background on all these topics, with information on where and how you can get out and experience nature on your own.

Week 1: Fall Songbirds

Week 2: Meadow Plants

Week 3: Forest Ecosystems

Week 4: Wetlands in DE

Week 5: Online Naturalist Resources

Week 6: Delaware River Ecosystem Update

Week 7: Fall Astronomy

Week 8: History of the Wilmington Riverfront

Week 9: Revisiting Delaware’s Outstanding Natural Areas Publication

Week 10: Virtual Exotic Travel

Week 11: Christmas Bird Count Fun
