

## **Virtual Intermediate Watercolor with The Art Studio**

### **Course Description**

This class is for students who have experience in watercolor or have taken our Beginner and Beyond Beginner classes. We will take the study of value in composition further, learn basic drawing methods, and focus on painting simple still lifes from life.

### **Weekly Layout:**

Value Studies, discuss the importance, show an example

Exercise Complete 3 value studies ranging in difficulty from simple to more complex

Sight measuring to draw from life

Single object set up with lesson on how to interpret what we see in front of us onto the drawing paper, if time value study of object we drew

Simple still life with white objects and a single-colored object to analyze the values of each. Discuss together where the darkest shadows, midtones and highlights are then paint the scene. Special attention paid to the shadows and highlights on items with color vs. the white objects.

Simple still life with white objects and two different color objects to analyze the values of each. Discuss together where the darkest shadows, midtones and highlights are then painting the scene. Special attention paid to the shadows and highlights on colored items vs. the white objects.

Complete project from previous week
