

Hello, there really is No Course Content for this class. The Description is all people really need. Many have taken this class for the COVID years.

My personal requests are these:

Two things. It is imperative that we are scheduled for 2 hours. We watch the whole film and some are 2 hours. I communicate with class if we are going to meet a little earlier or need to stay a little later.

Second is that I would like it on the same day as my ASL Class. I used to have both on Mondays but I would prefer on a different day. I have already submitted my Intro to ASL Form. Please call if there are any questions 215-378-9150.

Thank you Sondra Weidman
