

Course Description:

“The Universal Christ” is a great and complex read. Together we will explore what Father Richard Rohr of the Center for Action and Contemplation wants us to know about the Christ mystery (which I think of as the Christ Energy). As he says in the first chapter Christ is not Jesus’s last name. He tells us the first Christ came when the universe was created. Jesus was the second Christ born into a “Christ-soaked world”. The third is the on-going creation (which I think of as our evolution), hence the book title.
