

## French Grammar Course:

In this course, participants will practice the use of relative and object pronouns.

The practice will consist in identifying the parts of sentences that are related in meaning and may be replaced by pronouns. Subsequently, they will join two sentences with the appropriate relative pronoun – qui, que, dont...

Exemple: C'est mon frère Jean. Il habite à Paris.

C'est mon frère Jean qui habite à Paris

The same type of practice will be used for the use of object pronouns.

Exemple: Est-ce que tu connais mon frère Jean ? Oui, je le connais.
