

ADVANCED WOODWORKING USING HAND TOOLS

This course will teach advanced woodworking techniques. This will build on the Basic woodworking course, the basic course is not a pre-requisite, but some woodworking skills are required. The course will include how to hand cut rabbets, dados and grooves, box joints, Dovetails, Mortise and Tenons and more. There will be 10 -3 hour classes. Each class will consist of a 30-minute lecture followed by 2 ½ hours of shop time. The student will need to bring safety glasses, a combination square, a set of Bevel Edge Chisels, a mallet, a Dove tail saw or back saw, marking knife and marking gauge. There is a \$15 cost for supplies/ lumber used in class. The Class size limited to 6 students.
