Sea Glass Forever!

Course category: (X) Extracurricular

Instructor: **David Liemer**

Sea Glass Forever! is a lively series of talks about finding sea glass in Delaware. You will see and handle all kinds of sea glass in many colors, hear from a surprise guest expert or two, and get to share your own favorite finds in Show and Tell.

If you've taken this course before, every session this spring will be different. If you've taken the field trip before, we're heading to a different beach this time. The tentative five sessions are:

1. You Never Know: A Random Walk Down the Beach
2. What Sea Glass Hunters Can Learn from Barbecue Pitmasters.
3. Forgotten Colors: Black & White & Grey & Clear
4. The Hunt for Red
5. Field Trip to an Undisclosed Delaware Beach Location

No one goes home empty-handed from a session of Sea Glass Forever!
