

Mexican Train Dominoes (Extracurricular)

Instructors: Gerri Sanchez, Karen Jester, and Ruth Suarez

Mexican train is a game played with numbered dominoes. The object of the game is for a player to play all the dominoes from their hand onto one or more chains (trains).

This class will be conducted online, using a free web-based program for Mexican Train. Class instruction will include how to play the game, as well as how to use the online program. The class is for both beginners and new players.

Although any device can be used to play, your experience will be enhanced with a larger screen, such as one found on an iPad or a PC. Playing on a smart phone will be difficult, as the screen is too small to see all the tiles at one time.
