

UKULELE GROUP Spring 2023

This is a mostly informal gathering of ukulele players of all levels and of all types of ukulele, from soprano to bass. Using a shared source of tunes (*The Daily Ukulele: 365 Songs for Better Living* by Jim and Liz Beloff), participants will select songs to play and sing during each section. The participants may be asked to suggest tunes for future sessions, in which case a list will be compiled and provided to everyone through e-mail.

The goals of the class are fun, personal enrichment, improved playing skills, and the chance to meet other local ukulele players.

Each class session will begin with a short instructor-led segment that will highlight specific left- or right-hand playing techniques, teach new chords or strumming/picking patterns, discuss pertinent ukulele-related topics, and answer any questions. Handouts will be provided as appropriate. The instructors may send participants occasional e-mail notices about live or online opportunities for playing sessions or workshops as these arise.
