**HU213 OSHER FREE WRITE**

Tuesdays, 10 a.m.–Noon  
Dates: 4 Sessions, June 7–June 28  
Instructor: Philip Fretz

Free write is a time to let your imagination go to your pen, pencil or text editor. Given a prompt of a sentence, or phrase or even just one or two words, write whatever comes to mind. Free writing is the practice of writing down all of your thoughts without stopping and without regard for spelling, grammar or any of the usual rules of writing. We will do this for about five minutes then each person can share what he or she has written. It is okay to pass. All you need is paper, pen, pencil, a laptop or tablet. It is fun to hear how one topic can generate as many versions as there are participants.

**Class limited to 10 students.**

**Philip Fretz**, originally from Philadelphia, retired here after 37 years in the computer services industry. He holds a B.A. in political science from Haverford College and an M.B.A. in computer science from Temple University. Mondays, 1:30 p.m.–3:30 p.m.  
 Dates: 4 Sessions, June 6–June 27  
 Instructor: Patricia Mossel

Recorded live in 1986 at the Vienna State Opera, Plácido Domingo and Eva Marton star in a sumptuous performance of Ponchielli's famed four-act melodrama *La Gioconda*, a story of tyranny and intrigue set in semi-historical, romantic Venice. This opera is seldom produced because it requires a large expert cast of singers and a large ballet and solo dancers for the performance of the famous "Dance of the Hours." In 1975 Beverly Sills performed at Wolf Trap in perhaps her most acclaimed portrayal, that of Queen Elizabeth in the Donizetti rarity *Roberto Devereux*. When Miss Sills first sang this role at New York City Opera in 1970 the opera had not been staged for 125 years and was one of the theatrical events of the year, culminating in overwhelming acclaim for her vocal and dramatic prowess in the role.

**Patricia Mossel** holds an M.A. from Yale University in English literature and a B.A. from the University of Rochester in English literature. She taught college level English literature and Shakespeare honors; was director of development for San Francisco Opera; was the executive director of the Washington National Opera, resident company of the Kennedy Center for the Performing Arts in Washington, D.C.; and has served on boards, including the National Society of Fund Raising Executives and Opera America. Pat currently serves on the board of the Dallas Morse Coors Foundation for the Performing Arts.

We will discuss aspects of the music in terms of melody, harmony, rhythm, form, dynamics, articulation, instrumentation and—whatever else you want to know about—with the use of visual aids. We will hear complete pieces with various kinds of imagery chosen to complement the music both in terms of affect and structure. The primary purpose of the course is your better enjoyment of the music offered. Materials for course preparation and presentation are donated by Winslow Media, LLC.

**RR02 ENGLISH COUNTRY DANCE**

Thursdays, 1:30 p.m.–3 p.m.  
 Dates: 4 Sessions, June 9–June 30  
 Instructors: Ted Mason, Carol West

Come and enjoy the dance form America grew up with. It's been fun for more than three centuries, it's still fun and we think you'll like it. It's easy to learn! If you can walk and smile, you can do this kind of dance. The caller will explain all the moves and walk you through the dance before it starts, then continue to prompt you as the dance goes on. The dances focus on the group, not the individual. We customarily change partners after each dance, so we get to dance with lots of different people. We're a friendly group! It's easy and there's the music! It's NOT to be missed!

**Class limited to 24 students.**

**Ted Mason** looks forward to teaching English Country Dance this summer. He holds a bachelor's degree in humanities and a degree from Colgate Rochester Crozer Theological Seminary [M. Div]. His second career was owning a catering firm for 22 years. He works at the Sussex YMCA teaching aquatic classes. Ted holds an instructor's certificate from the American Arthritis Foundation. He is a coach for Delaware 50+ for its Matter of Balance program.

**Carol West** was a high school math teacher in Maryland for 25 years. She is a beginner caller for English Country Dance. She enjoys music in all forms and plays violin and handbells.

## RR25 INTERNATIONAL DANCING FOR FUN AND FITNESS

Tuesdays, 1:30 p.m.–3:30 p.m.  
Dates: 4 Sessions, June 7–June 28  
Instructor: Andrew Montano

This semester will include new dances and the most popular previously taught dances. International dancing has become a popular and enjoyable physical activity. The dances taught in this program illustrate the types of dance enjoyed by different cultures around the world and use a variety of rhythms and dance movements that are fun to do. Partners are not required and no previous dance experience is necessary. If you can walk, hop and run (a little) you can learn international dancing and experience the energy and exuberance associated with the dances of Israel, the satisfaction that comes from Greek dancing, the fun of Italian dances and the pride that comes from mastering the lively Balkan, Russian and Scottish dances. International dancing is a great way to exercise both mind and body, improve stamina and balance, meet people and have fun dancing together.  
**Class limited to 30 students.**

**Andrew Montano** is a retired electrical engineer. He is an international folk dance instructor and leader for over 30 years in New Jersey at the Bridgewater Senior Center, the Monmouth and Morriston Folk Dancers and an adjunct professor teaching international folk dancing at Ocean County College.

### SS131 THE GREAT FILTER— WILL HUMANS SURVIVE?

Tuesdays, 10 a.m.–Noon  
Dates: 1 Session, June 21  
Instructor: Bill Fintel

In this one-session course, we will explore why no other intelligent life has ever been detected in our universe and what are the major threats to human survival. The Great Filter is a concept proposed to explain why intelligent life has never been detected beyond Earth, when currently we have data to support that in the vastness of our universe, there is a high probability that there are many habitable planets like Earth (those of the right size and distance from a properly sized sun). If interest in this topic warrants, this course will be continued in the fall with guidance from this June class.

**Class limited to 70 students.**

**Bill Fintel** loves our Earth and all life on it. Bill graduated from Cornell as a chemical engineer and has always been a devotee of the famous Cornell astronomer Carl Sagan, who believed that intelligent life would be found somewhere else in our Universe. Bill has taught several OLLI courses on climate change, a definite factor in human survivability.
